

Basildon Borough Council - EPAM User Guide – April 2018

EPAM is the Essex Property Assets Map. It is an interactive online map used to display property data from partner organisations within Essex

Using the Map

1. Navigating around the map

Click and drag the map to pan around the map.

Double clicking on the map zooms in. The slider to the left of the map can also be used to zoom in or zoom out.

2. Using the search function

Search allows you to search for towns, streets and postcodes. As you type; suggestions will be displayed below the search field.

3. Layer List and Legend

In the top right hand corner you can select to show the Legend which will tell you what each colour refers to or you can use the Layer List which allows you to filter on different layers.

4. Identifying Features

Click on a feature on the map to see the details of that feature, for example
