1. Introduction

The council recognises that detected fraud and corruption in local authorities is increasing and that it has a statutory duty to minimise the risk of fraud and, where possible, prevent fraud and corruption occurring within the authority.

Fighting Fraud and Corruption Locally 2020 is the updated counter fraud and corruption strategy for local government. It provides a blueprint for a coordinated response to fraud and corruption perpetrated against local authorities. The strategy outlines a governance framework for continuing national and regional collaboration on counter fraud under the Fighting Fraud and Corruption Locally umbrella. Aligning our policy and strategy to this framework supports the development and maintenance of a culture in which fraud and corruption are unacceptable.

The aim of this policy and other anti-fraud measures put in place by the council is to develop and embed a strong anti-fraud culture. This not only acts as a deterrent to potential perpetrators of such activity, it will also assist the council in protecting vital services and in managing its resources effectively.

As there will always be a small minority who consider fraud to be acceptable, the council will put in place appropriate measures to prevent fraud from entering the system, but where it does occur, the council will act swiftly to detect, investigate and punish those found to have been involved in fraudulent activity. The council will utilise all available criminal, civil, regulatory and disciplinary sanctions and will seek to recover all losses where this is considered to be in the public interest and taking account of the resources available

This policy applies to all:

- members and employees of the council
- agency workers and consultants engaged by the council
- the council's agents, partners, suppliers and contractors supplying goods or services to the council, or performing work and/or delivering services on behalf of the council
- members of the public in use of council services

There are three ways that the council can discharge this duty. These are by making all members, employees and the public:

- i. aware of the council's views on fraud and corruption;
- ii. aware of their personal responsibilities in relation to their conduct;
- iii. aware of what action they should take if they become aware of fraud or corruption.

This policy document covers i), while the 'Fraud Response Plan' has been developed to cover ii) and iii) above

This policy supports the Local Code of Corporate Governance in promoting the values of good governance through the upholding of high standards of conduct and behaviour.

2. Policy Statement

The council is committed to the prevention and detection of fraud, bribery and/or corruption and associated activities whether it is perpetrated against, or arises from within the council in order to protect public funds. Where fraud, bribery and/or corruption is suspected or identified, the council will commission an investigation and take all reasonable steps to recover losses.

The council will use sanctions where the need is identified. This may include involving the police, pursuing a prosecution (wherever relevant) and/or the use of disciplinary action against employees where fraud, bribery and/or corruption is suspected or identified, whilst treating each case on its own merits and taking account of the public interest.

3. Strategic approach to fraud

One of the basic principles in the management of public sector organisations is to ensure the proper use of the public funds. It is, therefore, important that all those who work in the public sector are aware of the risks of fraud, bribery, corruption and/or money laundering, along with the measures in place for their detection and prevention.

This policy sets out the council's position in respect of fraud, bribery and/or corruption, along with associated activities, involving dishonesty such as money laundering, and is applicable to all aspects of the council's business, employees, contractors and any person or organisation doing business with the council.

The council's use of sanctions will be governed by this policy and the principles of the policy shall apply equally to any fraud against the council or against funds for which the council has responsibility. The council will not accept abuse of either its services or resources. Fraud, corruption and theft whether committed by staff (paid and volunteers), Elected Members, contractors, agents and/or other third parties will not be tolerated. All persons under suspicion will be treated fairly. This means that so far as it may be reasonable and/or appropriate to do so, the council will look to strike the right balance between the preservation of personal rights and freedoms and the public interest need, to ensure that justice is achieved in any given case.

The council's Fraud Response Plan, supports this policy and provides further details on:

- Definitions of Fraud, Bribery, Corruption and Money Laundering
- What criminal offences relate to fraud, bribery, corruption and money laundering
- The council's approach to ensure adequate procedures are in place to mitigate risks
- General roles and responsibilities
- An overview of relevant contacts for advice and reporting concerns
- The range of sanctions available to the council, as a deterrent to fraud, bribery and associated offences

This policy is underpinned by a strategy that sets out how this policy will be implemented and delivered, with specific reference to the Outcomes and Priorities identified in this policy.
